

Street Meeting minutes from 6/29/2020

Meeting called to order by Randy Decker at 6 PM . Attending were Trustees Schreiner , Perkins , Lenhard , McCord and Kornack .

Only item on agenda was to review the street plans for Mueller Street project presented by Nick Bancuk from MTS services . Several items were discussed and approved .

1. Robert Frahm driveway , to extend curb to west 5' and make his ditch so water flows To west and out of his yard as much as possible .
2. Well Street radius , Radius on both east and west sides to be removed and install a driveway curb instead , keeping the 36' width .
3. Manholes , committee preferred all manholes have plastic adjusting rings to top of manhole and to steel grate in street .
4. Drive way approaches . New approaches to be the same material as existing approaches are .
5. Catch basin behind curb . Both landowners were given a diagram of the proposed slope of the grass in this location , and both approved it verbally per Chairman Decker .
6. Detour and weight limits . Committee decided to post Plisch Street and West Village Limits road with a weight limit to be determined on a temporary basis until construction project is Completed . Detour was discussed , all homeowners should have access to their homes on a daily basis . Committee decided to make certain heavy truckers aware of the construction and temporary weight limits and to avoid this area if possible . Detour is still a question if needed .
7. Materials to be excavated . If sand and or granite is present the Village would like that material to be hauled to the old dump site on Degner street . Any bad material to be hauled to lot on corner of Mount View and Parkview in Industrial park and leveled off by the contractor .

Motion by Perkins to accept street plans with these changes , second by Schreiner , Motion passed 3-0 .

Motion to adjourn by Perkins at 6 :24 pm , with second by Schreiner , motion passed 3-0 .

Randy Decker Street Chairman
