

This 200+ acre area is located on the north end of Well Street adjacent to Black Creek. This land was donated to the village specifically for park development and has been extensively developed in recent years. Currently this park includes a beach area, restrooms, shelter with kitchen, playground equipment, nature trails, and volleyball courts.

There are 6-7 miles of summer and winter trails maintained in part by the Athens Area Trail Association. This volunteer group grooms the trails in the winter for both classic and skate skiing as well as snowshoeing. Walkers enjoy these trails regardless of the season. Mountain bikers take advantage of the trails during the warm weather months.

Yearly events at this venue include: Athens Fair 5K Fun Run/Walk (every August), High School Cross Country running events (Fall), and Athens Area Trail Association Candlelight/Moonlight Walk (February).
